

April 2013

MY UGANDAN CHILD NEWSLETTER

Land mark has been archived in the month of April.

Another land, we have been able to partner with RECESVID (Rehabilitation center for Victims of Domestic and Sexual violence) to provide counseling sessions to both the children and adults who need counseling services or are victims of either domestic or sexual violence. And this partnership will train more our peer counselor who will help our team to meet the objectives and the target groups.

Hands on training for women and teen mothers.

We started having training class for the Teen mothers to equip them with basic income generating skills like bread making classes and this have also helped them interact with other teen mothers from others places in addition to the counseling and medical attention given

Short of medical volunteers to help in our community outreach that is done twice a month in the community and schools.

Increase in early pregnancies among school going children amidst our efforts to put and end to early pregnancies among school going girls.

Limited scholastic materials like books , pencils and school fees for the children under the send more to school project.

We started another project called solutions from us , this project we train the community on how to start earning income from their surrounding source and our target is try to reduce poverty and dependence in the community. (seminars held and some community members we trained , Kilembe Town Board)

Trials and Challenges

One of our pupils, Immaculate was down with Malaria and Peptic Ulcers and she was back home for a week.

Herman (under My Ugandan Child send more to school program) too has been down with cough and malaria and has not gone to school for a sometime.

Many children, women and teen mothers register at our office seeking our support but there are limited resources that can cater for 2000 clients both children, women and the youth.

Dear Friend and Partner with us

In this Issue

Our partnership land mark 01
Trials and Challenges 02
Family and children 02

With an attitude of gratitude, We greet you in the name of our risen Lord and Saviour as I thank Him for your support to the vulnerable teen mothers , children, women and youth.

The Months events were marked with blessings, trials as well as challenges. In everything we give thanks as all things work for good to for all who are in Christ Jesus

Family

This baby finally gets back to its family after it has been stolen from its mother in the hospital, we are dedicated team that ensures that children's rights are not violated.

School Closes

The school close for the holiday and with your support, we managed to reach and support 1000 children attend school with scholastic materials such as school fees , books ,pencils and pens .We have however received some other forms of support like clothes from people all of the world ,thank you all for the support you have given.
